Handouts were distributed: Governance and Organizational Structures in Minnesota's Community Health Boards (3/2019), Community Health Services Administrators (Qualifications and Expectations), and Minnesota Local Public Health Act (Summary of MN Statute 145A). Handouts are attached.
Lengthy discussion followed explaining in detail the structure and relationship between the MN Department of Health and community health boards, options available and other factors to consider, along with possible scenarios, for filling the CHS director position. Ultimately, it will be the board's decision on how they wish to proceed.

- b. Approval of Financial Statement
Motion by Bill Pinske and seconded by Beth Oberg to approve the Financial Statement. Motion carried.
Discussion: CDS prepared additional material on spreadsheets to provide clarity on funding remaining. Grant funding has been coming in on a steady basis. Project Harmony and SHIP payments have been received within the month, however, are not reflected on spreadsheets. The approved process for payment to counties has been running smoothly with the exception of Project Harmony (to be resolved soon) and payments are up to date. State is comfortable with process.
- c. Updates from MMS CHB finance Committee
Discussion: Diane Winter looking into using procurement card like Sibley and Wright counties as a possibility to resolve credit card issue. CDS will do asset tracking as discussed at last meeting. State audit currently in progress and there are no red flags.

8. Executive Committee Update

Breastfeeding Peers: Diane Winter will reach out to Doherty for details on 5% wage determination/COLA questions.

9. Administrative Functions Update

The focus continues to be on MDH reports matching our workbooks. Separation of duties and communication has improved flow, creating a much smoother process. CDS agrees.

10. CHS Administration Transition

- a. CHS Personnel Policies: When working on options for future direction during the interim process for CHS staff, focus has been on personnel policies and performance evaluations. There is a need to identify discrepancies and inconsistencies to develop policies that adequately evaluate the performance of our employees to provide increases according to our compensation plan, as well as clarify hiring and employment end processes. When policy clarifications are completed locally, will ask CDS to do an overview.
- b. Performance Evaluation Process: Search continues to identify a performance evaluation tool. CHS employees do not have access to county systems where performance evaluations are located. The question was asked if networking could be developed to rectify. Diane Winter will look into options.
