State Community Health Services Advisory Committee (SCHSAC) take-home points: April 15, 2022

Upcoming Meetings

Full SCHSAC Membership

Next meeting: June 9, 2022 (still determining timing). It will be a hybrid meeting at the Wilder Center in St. Paul. Due to social distancing, in-person invitations will be limited to three people from each community health board: SCHSAC member, SCHSAC alternate, and either CHS administrator or health director. Others can attend virtually.

Executive Committee

- May 12, 2022 (9:30-11:30 AM)
- July 14, 2022 (9:30-11:30 AM)
- September 8, 2022 (9:30-11:30 AM)
- November 10, 2022 (9:30-11:30 AM)

For the most current meeting dates for full membership and the Executive Committee, visit: [Meetings and materials for SCHSAC members](https://www.health.state.mn.us/communities/practice/schsac/members/meetings.html) (<https://www.health.state.mn.us/communities/practice/schsac/members/meetings.html>).

Action Items

- **Connect with elected officials:** Share what is vital in your community to ensure policies and funding align with needs related to health.
- **Poll about mentorship:** If you expressed interest at the February meeting about participating in the SCHSAC mentorship program, respond to the poll Kim Milbrath will send out soon.
- **Help with study groups:** If you are interested in helping facilitate study groups about public health topics, contact De Malterer (de.malterer@co.waseca.mn.us).

Commissioner's Remarks (Jan Malcolm)

- **COVID Update:** We are in a much better place with tools and knowledge to manage COVID-19 as an ongoing health condition. SARS CoV-2 is not going away. We hope and expect it will become like ongoing circulating viruses with treatments and vaccines. The approach now is to reduce the severity of the impact of COVID. We are watching variants popping up all the time. BA.2 variant is now the dominant strain in MN. We have seen cases rising the last couple weeks but not dramatically. We expect to see cases increase for a bit but are hopeful with the degree of immunity we have (from vaccinations and infections) that we are in a good position to weather this.
- **Future Public Health System:** We have an opportunity to apply what we learned through COVID to create a stronger public health system together. We know so much more about how to leverage all

parts of the system in a synergistic way. The 21st Century Public Health System Core Leadership Team is doing great work. The leadership team is made up of SCHSAC, LPHA, and MDH, and all are at the table as equals. This is not an MDH project—this is us working together to build a stronger public health system for future generations.

- **MDH Bureau of Health Equity:** MDH now has a Bureau of Health Equity, with Dr. Brooke Cunningham as Bureau Assistant Commissioner. Dr. Cunningham is inspiring everyone she talks to. We look forward to introducing her to you. Health Equity is something that truly is a goal for all of us. Health equity is about ensuring all have equal opportunity for optimal health without structural barriers (all ages, races, ethnicities, geographies, abilities). Health equity will be central to the future public health system.
- **Legislative Update:**
 - Great salutations to SCHSAC workgroup on items around supporting children of incarcerated parents. Several of the recommendations made it into the Governor's budget.
 - The legislature adjourns on May 23. The House Health and Human Services omnibus bill has many components MDH is interested in, including significant investments in state, local, tribal, and public health and funding for workforce development (health care, public health workforce), drug overdose and substance use prevention, mental health issues, implementation of a suicide prevention help line, lead abatement, efforts to support children of incarcerated parents. At this point, the public health system and program requests are not in the Senate omnibus bills.

Update: SCHSAC Meetings and Plan for Fall (Sheila Kiscaden)

- **June SCHSAC Meeting:** We will have a hybrid SCHSAC meeting at the Wilder Center in St. Paul on June 9, 2022. We are still determining the meeting time. Due to social distancing, in-person invitations will be limited to three people from each community health board: SCHSAC member, SCHSAC alternate, and either CHS administrator or health director. Others can attend virtually.
- **Community Health Conference:** Rather than a 400-500 person conference like in the past, we will have a deep dive conversation and planning session among SCHSAC, LPHA, and MDH about how to have a strong public health framework for the future. Discussion at the SCHSAC meeting highlighted how important it is to gather in person. Gathering in person is a way to help public health professionals process and heal from extremely demanding COVID response work. The hope is this modified fall event could also incorporate a wellness component.

Update: Innovation Grants (Phyllis Brashler)

- Over the past month, a team of eight people (5 current or former LPH directors, 2 MDH representatives, 1 reviewer from the UMN School of Public Health) reviewed all infrastructure fund grant applications according to the following criteria: how activities build the foundational capabilities, demonstration of organizational need related to capabilities of focus, potential for system-level learning, and how health equity was considered.
- The review team selected 16 projects across the state for funding. Projects cover different types of geographies, CHBs, and organizational structures of local health departments.
- Connect with Phyllis (phyllis.brashler@state.mn.us) if you have specific questions about the grants.

Member Orientation, Mentorship, and Study Groups (De Malterer)

- **Orientation:** There was a SCHSAC orientation prior to today's meeting that covered the basics of where SCHSAC fits and what we do. There will be more grounding opportunities moving forward.
- **Mentorship:** We have the list of names of people interested in the mentorship opportunity. If you expressed interest in February, watch for a poll from Kim Milbrath about whether you want to be mentored or want to mentor. In June, mentors and mentees will be able to meet in person.
- **Study groups:** We will start study groups to help interested participants harvest the richness of what is happening in public health across town, the state, and nation. If you are interested in helping with study groups, contact De Malterer (de.malterer@co.waseca.mn.us).

WIC Peer Breastfeeding Support Program

Minnesota WIC peer counselors improve health by increasing breastfeeding initiation, exclusivity, and duration in communities across our state.¹ Human milk feeding improves infants' and parents' health and helps families save money. It also leads to cost savings for insurers, employers, and society.

- Parents who breast/chestfeed have lower breast cancer, ovarian cancer, diabetes, and heart disease risks.
- Infants who receive human milk visit their health care provider less often, are less likely to be hospitalized, and need fewer prescriptions than formula-fed infants.
- Communities with low breastfeeding rates have higher rates of diseases that breastfeeding could prevent.

Breast/chestfeeding promotion and support is a priority for the Minnesota WIC program. Many local WIC agencies have offered peer counseling services to pregnant and breastfeeding parents since 2005.

"She has given me a lot of helpful information. Especially in the beginning when I was worried that baby wasn't getting enough. She explained that babies have small stomachs and a lot of babies are overfed. I didn't end up giving formula and I felt more comfortable."

Peer counselors are parents with personal experience breast/chestfeeding their own children. They are trained in the management of normal breastfeeding and in client-centered counseling skills. Peers strive to help each parent reach their personal infant feeding goals.

Peer counselors are recruited from the communities they serve and often speak the same language. They have similar life circumstances and experiences as their clients. Peers connect parent-to-parent with their clients and are a trusted source of information and support.

"When my milk supply started to drop, [my peer] was very helpful, knowledgeable and supportive and helped me to continue breastfeeding longer than I would have alone."

Figure 1. 2019 Breastfeeding duration among peer and non-peer participants in WIC Peer Program Agencies

Parents who had a peer, breastfed significantly longer than those who did not receive peer support (Figure 1).²

Peer Breastfeeding Support Advances Health Equity

Figure 2. Breastfeeding initiation by race and ethnicity in peer agencies, 2019

Breastfeeding rates in Minnesota vary greatly by cultural identity. Among parents who received peer services, all groups had higher initiation rates than among parents without a peer, and most exceeded the HP2020 objective of 81.9% initiation. Breastfeeding peer support is associated with significant decreases in breastfeeding disparities (Figure 2).²

Participation in Minnesota WIC Peer Breastfeeding Support Programs, 2019

The [Peer Breastfeeding Support Program](#) served more than 7,000 families in 2019, which is about 1 in 5 eligible Minnesota WIC participants. The number of peer programs increased from 14 to 18 in 2022, making services available to more WIC families.

Peer counselors receive USDA WIC Breastfeeding Curriculum training. WIC provides this curriculum to any organization wishing to provide similar services through a peer program. Contact the state WIC office for more information.

I feel so fortunate to have a Peer Counselor on our team; her presence revitalizes our conversations about breastfeeding. Because clients ask her different kinds of questions, we get to reflect together as a staff on the whole scope of the breastfeeding experience in our area for better outreach, better messaging, and better support. —WIC Staff

"She's the reason that I am breastfeeding. She told me I can do it."
"I wouldn't have breastfed for a year without the support of my Peer Counselor."

Meeker McLeod Sibley Peer Breastfeeding Support Program

Minnesota WIC Program

April 2021

Participation in the Peer Program

- The Minnesota WIC Peer Breastfeeding Support Program hires and trains women who are like those being served to provide basic breastfeeding education and support to pregnant and postpartum WIC participants.
- Women with peer support breastfeed at higher rates and for longer durations than women without a peer
- Over the last 6 years, as WIC participation has declined overall, the percentage of WIC participants enrolled in the peer program has increased slightly, with more than one in six mothers participating.

Statewide peer program enrollment and participation 2013 - 2018

Participation in the Peer Program

- The MMS WIC Peer Breastfeeding Support Program hires and trains women who are like those being served to provide basic breastfeeding education and support to pregnant and postpartum WIC participants.
- Women with peer support breastfeed at higher rates and for longer durations than women without a peer
- In the MMS Peer Program, more than 1 in 3 eligible women participated in 2018.
